

# LAMPERT LAWGiC

Your Canadian Legal Partner for Israeli  
Innovation

Business law services built by a team that understands Israeli  
business culture and startup ecosystems.

# Why Israeli Companies Choose Us

## Proudly Pro-Israel

We don't just work with Israeli companies, we actively support Israel and the Israeli business community. We understand your culture, values, and business approach. You'll feel at home working with us.

## Startup DNA

We live and breathe startups. From pre-seed to Series C and beyond, we can guide you through expansion with practical, growth-focused legal strategies and advice.

## Full Team Approach

When you work with Lampert LawGiC, you're not hiring just one lawyer. You are partnering with our collaborative team. We ensure you always have the right expertise when you need it.

## Israeli Time Zone Ready

We work seamlessly across time zones. Morning call from Tel Aviv? Evening update needed? We're responsive and available when you need us.

# Built for Startups

## Strategic Considerations for Israeli Startups

### Dual Entity Structure

Maintain your Israeli R&D center while establishing a Canadian commercial entity for North American operations.

### Corporate Restructuring

Reorganize your corporate structure with a Canadian parent company to optimize for North American capital markets and investor access.

### Access to Qualified Workforce

Leverage Canada's highly educated, multilingual tech workforce with world class engineering skills and technical capabilities.

### Government Incentives & Grants

Israeli companies can leverage SR&ED tax credits and other Canadian government incentives available to startups and tech companies.

### Investor-Ready Setup

Structure your entity from day one to attract Canadian VCs and strategic investors.
